SUMMARY

Passionate and driven aspiring full-stack developer with a strong foundation in programming, database management, and web technologies. Skilled in solving problems using logical and analytical thinking. Experienced in building projects using Java, JavaScript, React, SQL, and backend technologies. Brings strong teamwork, effective communication, and reliable time management to collaborative development environment. Eager to contribute to impactful, real-world software solutions.

SKILLS

Technical skills:

Programming Languages: Java, JavaSctipt, c#, SQL
Frameworks: SpringBoot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, JWT Authentication
Frontend: Technologies: React 18, JavaScript(ES6+), Angular, HTML5, CSS3, BootStrap
Databases: MySQL, SQL Server
Web Services & Integration: REST API, JSON
Architecture: Microservices Architecture
Version Control & Repository: Git, GitHub
Testing: Junit, API Testing, Test-Driven Development(TDD)
Tools & IDEs: Intellij IDEA, VS Code, Maven, Postman, MySQL Workbench

Interpersonal skills:

Critical Thinking, Good Communication, Team Collaboration, Presentation Skills

EDUCATION

ACTS, CDAC Pune 2025
PG Diploma in Advanced Computing

Progressive Education Society's Modern College of Engineering
Bachelors in Electronics and Computer Engineering CGPA 8.22 2020-2024

Arihant College of Arts, Commerce and Science
12th HSC 66.7% 2019-2020

PROJECT

Point of Sale (POS) Management System
Description:
Developed a full-stack POS Management System to streamline billing, inventory management, and sales tracking for retail environments. The system enables efficient product handling, real-time order processing, and secure transaction management through an intuitive user interface.

- Designed and implemented RESTful APIs using Spring Boot for product, category, and order management.
- Built a responsive frontend using React for seamless billing, cart handling, and dynamic UI updates.
- Integrated secure authentication and authorization using JWT and Spring Security.
- Implemented database operations with SQL Server for inventory tracking and transaction history.

Technologies: Java, Spring Boot, Web API, React, JavaScript, HTML5, CSS3, Bootstrap, SQL Server, REST APIs, Git, Spring Security, Postman

Alumni Networking Platform
A web-based platform to connect alumni with current students for mentorship, opportunities, and collaboration.
• Tech Stack: Java, JDBC, MySQL, ReactJs, Bootstrap, Springboot
• Implemented user authentication with login/registration, session tracking, and input validation
• Designed and integrated MySQL database to manage user data, posts, and communication features
Contributed to backend logic, database queries, and frontend styling for a seamless user experience.

INTERNSHIPS

Intern in Marketing & Brand Building: Electronic Wings (200K Users) February 2023 to June 2023

- Plan and execute all digital marketing, including advertising, and marketing database.
- email, social media, and display advertising campaigns
- Measure and report the performance of all digital marketing campaigns and assess them.
- Identify trends and insights and optimize spend and performance based on the insights
- Brainstorm new and creative growth strategies.

TRAININGS/CERTIFICATIONS

- Internshala Web Development Training
- Programming Certificate – Spoken Tutorial, IIT Bombay

ACHIEVEMENTS

- 1st Place in Project-Based Learning (PBL) competition
